

H7805AI

H7805BI

3-TERMINAL POSITIVE VOLTAGE REGULATOR

Description

The H7805_I series of three-terminal positive regulators are available in the TO-251 package and with several fixed output voltages, making it useful in a wide range of applications. These regulators can provide local on-card regulation, eliminating the distribution problems associated with single point regulation. Each type employs internal current limiting, thermal shut-down and safe operating area protection, making it essentially indestructible. If adequate heat sinking is provided, they can deliver over 1A output current. Although designed primarily as fixed voltage regulators, these devices can be used with external components to obtain adjustable voltages and currents. H7805_I is characterized for operation from 0°C to +125°C, and if operating temperature will always hi, please refer the power dissipation curve.

Absolute Maximum Ratings (Ta=25°C)

- Input Voltage..... 35 V (5V Through 9V), 40 V (24V)
- Total Power Dissipation Internal limit
- Operating Temperature Range 0 °C to +70 °C
- Maximum Junction Temperature..... 125 °C
- Storage Temperature Range -55 °C to +150 °C
- Lead Temperature (Soldering 10S)..... 230 °C

Typical Application

Note :
 C1 and C2 are required if regulator is located far from power supply filter and load, or oscillation may induced on the loop.

Schematic Diagram

Electrical Characteristics

$V_{in}=10V$, $I_o=500mA$, $0^{\circ}C \leq T_j \leq 125^{\circ}C$ (unless otherwise noted)

Symbol	Parameter	Conditions	H7805AI			Units
			Min	Typ	Max	
Vo	Output Voltage	$T_j=25^{\circ}C$	4.85	5	5.15	V
		$PD \leq 15W, 5mA \leq I_o \leq 1A$	4.85	5	5.15

Notes : 1.Dimension and tolerance based on our Spec. dated May. 24,1995.
 2.Controlling dimension : millimeters.
 3.Maximum lead thickness includes lead finish thickness, and minimum lead thickness is the minimum thickness of base material.
 4.If there is any question with packing specification or packing method, please contact your local HSMC sales office.

Material :

- Lead : 42 Alloy ; solder plating
- Mold Compound : Epoxy resin family, flammability solid burning class:UL94V-0
