**Intellimod™-3 Modules**  
 Three Phase + Brake  
 IGBT Inverter Output  
 25 Amperes/460 Volt Line

**Description**

Powerex Intellimod-3 Modules are designed for applications requiring a high frequency (20kHz) output switching inverter. The modules are isolated from the baseplate, consisting of complete drive, control and protection circuitry for the IGBT inverter.

**Features:**

- Complete Output Power Circuit
- Gate Drive Circuit
- Protection Logic
  - Short Circuit
  - Over-Current
  - Over Temperature
  - Under Voltage

**Applications:**

- Inverters
- Small UPS
- Motion/Servo Control
- AC Motor Control

**Ordering Information**
