**DESCRIPTION**

The OLB 2300/YLB 2400/GLB 2500 series light bars are rectangular displays designed for applications requiring a large light emitting area. They are configured in a single in-line package and contain a single light emitting area. The OLB 2300 and YLB 2400 devices utilize two LED chips which are made from GaAsP on a transparent GaP substrate. The GLB 2500 device utilizes two chips made from GaP on a transparent GaP substrate.
