

0.5 to 1.0 Watt Single & Dual Outputs

3355 Vincent Road, Pleasant Hill, CA 94523-4389 Telephone (415) 932-3911 Telex: 269 888 Telefax: (415) 932-6017

T-57-11
CALEX

FEATURES

- Low Noise Operation—LC Input Filter
10 mV p-p Output Noise
- 300 VDC Ground Isolation
- High Placement Density "μWatt" Case
0.8" × 1.25" × 0.4"
- Wide Input Voltage Range $\pm 10\%$
- High Efficiency >50%
- Continuous Short Circuit Protection
- No External Components Required for Proper Operation
- Computer Tested Three Times During Manufacture
- Vacuum Encapsulated (No Voids) Potting for Long Life

DESCRIPTION

These DC/DC converters are designed to fill the high performance power needs of analog and digital systems.

The converters consist of a bipolar chopper stage driving a low noise toroidal power transformer that provides 300 VDC ground isolation, followed by a high regulation protected linear regulator for low noise highly stable outputs.
