MOBILE CONNECTOR SERIES LPC MID

LPC MID

The LPC MID switchable connector is small in size with a low profile of 3.55mm.

This new generation of mobile phone connector uses the latest plated plastic technology which allows the outer shape to be modified easily. It also reduces the weight of the connector considerably.

LPC MID is surface mountable with a low profile and switching contacts. It is manufactured both in Europe and Asia, where the product is at all times 100% inspected and subsequently packed in tape and reel packaging.
