Schottky Barrier Diode

BKR400AB10

IO(AV)= 400A, VRRM=100V, VFM=0.68V

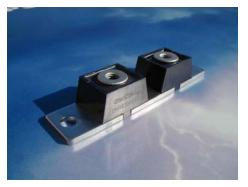

SanRex outstanding metal barrier technology allows **BKR400AB10** Schottky Barrier Diode Module to feature a very low forward voltage drop. This device also has low leakage current, low thermal resistance and improved avalanche energy rating. These benefits make this design an extremely reliable and efficient device for use in wide variety of applications requiring high power and low conduction loss.

Features

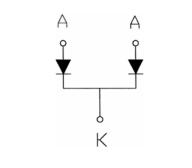

- * Very Low Forward Voltage Drop
- * Avalanche Energy Rated
- * High Surge Current
- * RoHS Compliance

Typical Applications

- * Rectifier in Switch Mode Power Supplies (SMPS)
- * Power Supplies for Plating
- * Uninterruptible Power Supplies (UPS)
- * Free Wheeling Diode in Converters

Non-isolated TO-244 (M6 Screw)
