

**Type: CSM-5**

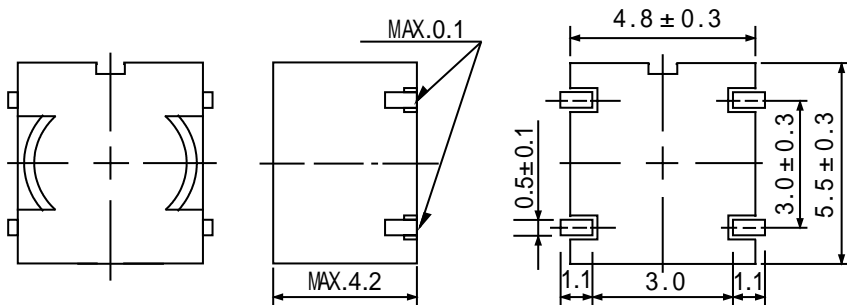

### Product Description

- 5.8 × 5.1mm Max.(L × W), 4.2mm Max. Height.
- Inductance: 5 μ H Max.
- Operating frequency:200MHz Max.
- In addition to the reference versions of parameters shown here, custom designs are available to meet your exact requirements.

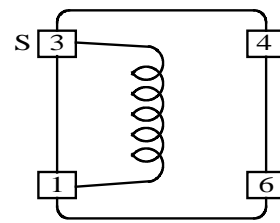

### Feature

- Unshielded type with plastic molding case.
- RoHS Compliance

### Dimensions (mm)

### Connection (Bottom View)

“ S ” is winding start.

- \* Dimension does not include solder used on coil.
- \* Pin pitch should be measured at the root of terminal.
- \* Dimensions without tolerance are approx.

### Specification(Part No. 5251-T031)

Item	(3-1)	Measuring frequency (MHz)
Tuning capacitance	60.8pF ± 20% Variable	100
Unloaded Q	35 Min.	100
