

# Dymo laser labels

176 096

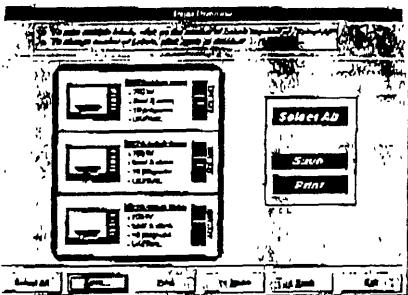

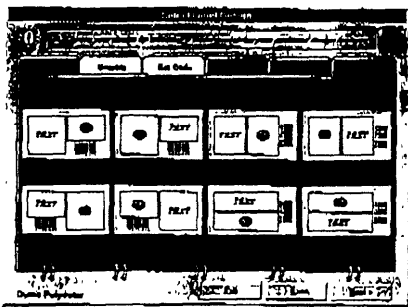

### The instant sign solution

Produce your own durable, high quality, polyester signs quickly and cost effectively straight from your laser printer.

Ideal for safety and warning notices, direction and information signs, pricing and promotional tickets, warehouse racking and post rooms.

A4 sheets of "Dymo" polyester, self adhesive labels and signs that can be printed on your laser printer. Available in a range of useful formats and colours. There is no wastage because if you do not use all the labels on the sheet at once you can pass them through your laser printer up to 12 times.

It's easy to design your own professional looking labels and signs with the FREE Dymo label software using ready made layouts allowing you to automatically slot in your choice text, graphic, or bar code.
