Description

Factory calibrated for either Celcius or Fahrenheit, model 720 can be supplied with four interchangeable type K thermocouples. These mineral insulated, high quality stainless steel probes are intended for immersion (720-01*), penetration (720-02*), air/gas (720-03*), or surface (720-04) temperature measurement applications. Optional 6 foot curly extension cord (720-31) is available to adapt other K type thermocouple probes with standard mini connectors. When ordering, specify either model 720F or 720C. Includes 4 type LR-44 batteries. Average battery life, 250 hours. Probes sold separately or as part of a complete set. Sets contain one each model 720F or 720C meter, probes 720-01/02/03/04, and a five compartment padded vinyl carrying case 720-99.
