

Regavolt®

700 Series

Regavolt 700 series Single Units
120, 230/240 and 440 volt input

Unit load ratings from 1.73kVA
to 4.3kVA

For General Specifications please refer to
our specification data sheet (RVT1).

For two-gang assemblies for single-
phase series or three-phase open-delta
operation and three-gang assemblies for
three-phase star operation see our
technical data sheet (RVT1T).

Special 700 series models are available
in a range of different types including
Component, Enclosed and Laboratory
models. Other 700 frame models
include 50/60 Hz models for other
voltages, High-frequency models and
Low output voltage models.

230/240 Volt - single phase

Model	706	708	710	715
Input Voltage	230/240V	230/240V	230/240V	230/240V
Load Rating	1.73 kVA	2.4 kVA	2.9 kVA	4.3kVA
Output Voltage	Over-voltage connection 115% of input Line-voltage connection 100% of input			
Rated Current	6A	8A	10A	15A
Max. Current (Line connection)*	7.2A	10A	12A	18A
No-Load Loss	15W	15W	30W	30W
Number of turns on winding	383	383	305	258

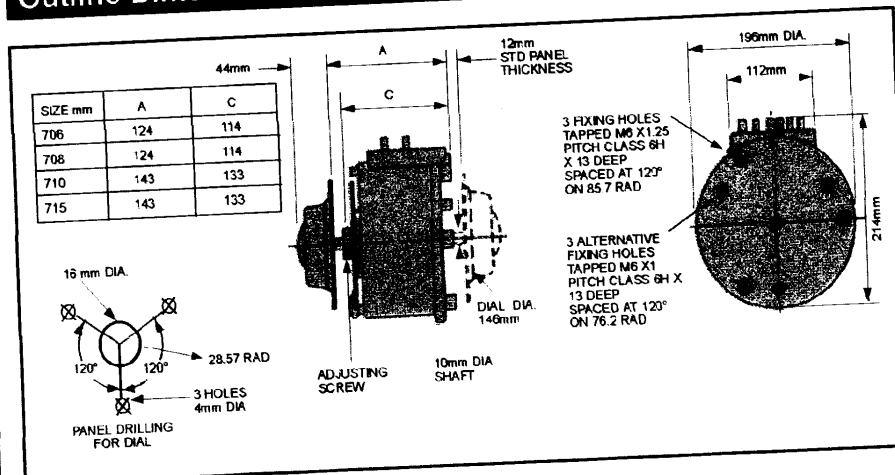

120 Volt - single phase

Model	706L	-	-	-
Input Voltage	120V	-	-	-
Load Rating	2.2 kVA	-	-	-
Output Voltage	Over-voltage connection 0 - 135V of input Line-voltage connection 0 - 120V of input			
Rated Current	15A	-	-	-
Max. Current (Line connection)*	18A	-	-	-
No-Load Loss	15W	-	-	-
Number of turns on winding	225	-	-	-

440 Volt - single phase

Model	706H	-	710H	715H
Input Voltage	440V	-	440V	440V
Load Rating	1.32 kVA	-	2.2 kVA	3.3kVA
Output Voltage	Line-voltage connection 0 - 440V of input			
Rated Current	3A	-	5A	7.5A
Max. Current (Line connection)*	3A	-	5A	7.5A
No-Load Loss	15W	-	30W	30W
Number of turns on winding	614	-	504	420

Outline Dimensions
