# Modular Terminal Strips

## **Modular Series**

Thermodata Modular Terminal Strips 'snap' together to provide permanent circuit configurations. These 15 amp modules form terminal strips with the following features:-

- 3 terminal options
- rugged barriers
- flame retardent mouldings
- interchangeable with Thermodata standard series and can be used with standard accessories

## **A new concept in Terminal Strips**

Mix and match: A new concept to help solve your packaging problems. Now you can mix terminations with 'snap' together modules to provide permanent configurations

## **Reduce your Inventory**

Make up what you want when you want to avoid 'dead' stock.

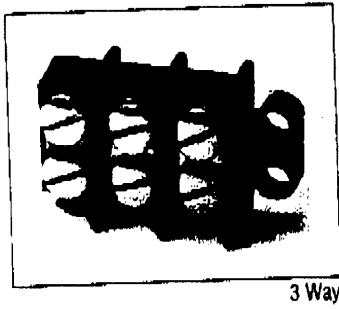

## **Technical data**

**Material**  
**Terminal plates**  
**Terminal Tags**  
**Screws**  
**Rating**

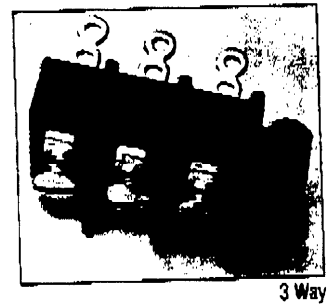

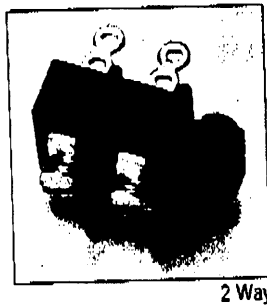

High impact thermoplastic  
Brass, nickel plated  
Brass, solder coated  
No. 4BA, Binder Head, Brass, nickel plated  
15 amps — 750 V d.c. or a.c. peak  
Temperature range — 55°C to + 100°C

# 105-281 TO 105-284 + Modular Terminal Strips 105-674/675

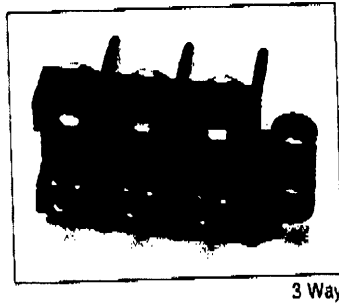

## Twin Terminals

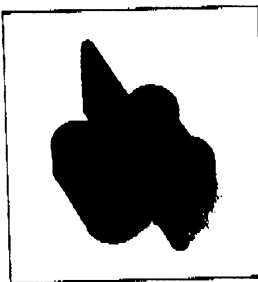

## Drop-Through Solder Terminals

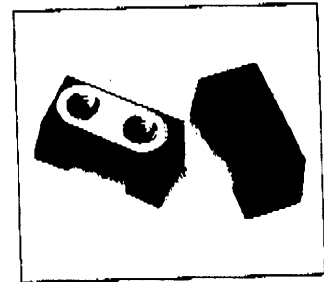

## Dip Solder Terminals

## Joining Segment

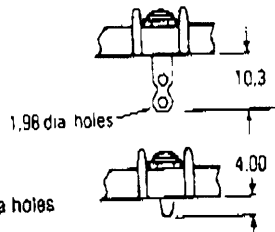

## End Fix Cover

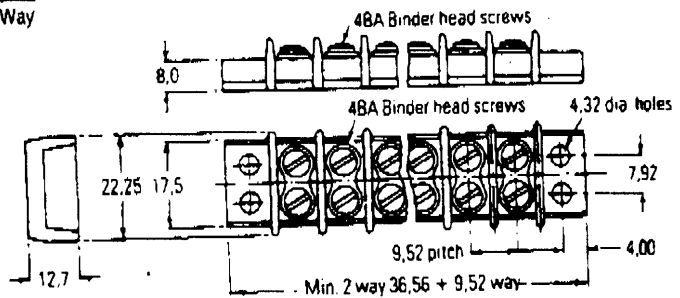

## Dimensions

All dimensions are in millimetres

Drop through solder terminals

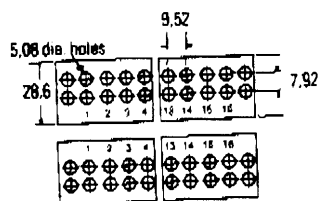

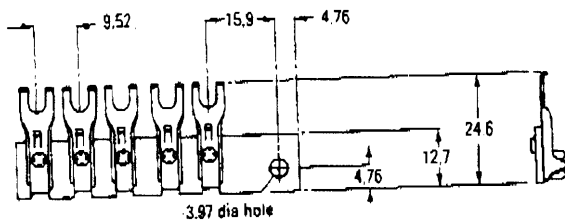

Dip solder terminals  
P.C.B. Pierced Grid 2.36 ± 0.08 dia holes  
9.52 Pitch in line
