

COTS-Plus

The TAZ part has fully molded, compliant leadframe construction designed for use in applications utilizing solder (Reflow, Wave or Vapor Phase), conductive adhesive or thermal compression bonding techniques. Each chip is marked with polarity, capacitance code and rate voltage.

The series comprises ten case sizes (see dimensional chart below) with the maximum size V case giving capacitance values to 470 μ F. The C case, with its non-standard aspect ratio, is retained as a QPL (Qualified Product List) only special.

MARKING

(White marking on black body)
