SURFACE MOUNT

RF POWER ATTENUATORS

RFA100, RFA150

特長用途

RFA100, RFA150は、定格電力100Wと150W、表面実装電力減衰器、DC-3GHzにおいて、特性インピーダンス50Ω、減衰量20dBと30dBの精密減衰器です。

RFA100 030, RFA150 030は、鉛フリー構造、ピームリード付のRFA100 031, RFA150 031はRoHS適合品。

いずれの製品も、チップの裏面を適切な放熱能力の金属ヒートシンクにはんだ付して使用します。

アイソレータ終端器、電力増幅器のパワー検出、高速LSI試験装置の信号制御、理化学機器、分析装置、医用電子機器のパワー減衰器として。

20dBと30dB以外の減衰量の製品については、当社に問い合わせてください。

Features and Applications

RFA100 and RFA150, 100W and 150W, surface mount small size attenuators of 20 dB and 30 dB attenuation, 50ohm characteristic impedance for DC to 3GHz.

RFA100 030 and RFA150 030 are Pb free and no BeO configuration.

RFA100 031 and RFA150 031 have Cu beam leads, RoHS and no BeO configuration.

Long life and temperature stability of thin film technology realize better performance at a temperature range from -55C to +155C.

Applications include power detect circuit of isolator, gain control circuits, isolation circuits of power boost amplifiers at GHz, loss compensation of transmission line of data communication systems, detecting signal control of ATE-LSI test system-circuit board functional test systems, industrial measurement electronics, medical scientific electronics and many communication systems.
