

SANYO**ALP202CJX**

Hybrid Collector Backlight

**Low-Temperature Polysilicon
2.0-inch TFT LCD Module****Overview**

This 2.0-inch LCD module is based on an active matrix full-color LCD module that uses low-temperature polysilicon thin-film transistors and includes a built-in driver circuit for narrower frames. It also includes a hybrid collector backlight system that uses edge illumination. It is optimal for use as the display in digital video cameras and digital still cameras.

Features

- 2.0-inch screen diagonal (5.1cm).
- Number of dots : 113,578 (521×218).
- RGB delta arrangement.
- Operating temperature : -10 to +60°C, Storage temperature : -20 to +70°C.
- Compact design with narrower frames in both the vertical and horizontal directions and a thinner form factor than earlier models.
- Scan switching support.
- Supports both NTSC and PAL when used with the recommended IC (the Sanyo LV4126W).
- Anti-reflective coating.
- Built-in hybrid collector backlight (Note that an inverter is not included.).
- Supports display with the backlight turned off in bright environments.
- Provides significant power savings.

Specifications

Parameter	Specification	Unit	
Effective viewing area (diagonal)	5.1 (2.0-inch model)	cm	
Effective viewing area dimensions (horizontal×vertical)	40.67×30.52	mm	
Number of dots (horizontal×vertical)	521×218	dot	
Dot pitch (horizontal×vertical)	0.078×0.140	mm	
Color arrangement	RGB delta	—	
External dimensions (horizontal×vertical×thickness)	Provisionally 51.4×54.2×8.2 (typical)	mm	Note 1
Weight	Provisionally 40	g	
FPC length	34.8	mm	

Note 1. Excluding the lamp harness and the FPC block.

Package Dimensions

unit:mm

■ Any and all SANYO products described or contained herein do not have specifications that can handle applications that require extremely high levels of reliability, such as life-support systems, aircraft's control systems, or other applications whose failure can be reasonably expected to result in serious physical and/or material damage. Consult with your SANYO representative nearest you before using any SANYO products described or contained herein in such applications.

■ SANYO assumes no responsibility for equipment failures that result from using products at values that exceed, even momentarily, rated values (such as maximum ratings, operating condition ranges, or other parameters) listed in products specifications of any and all SANYO products described or contained herein.

System Structure

- Specifications of any and all SANYO products described or contained herein stipulate the performance, characteristics, and functions of the described products in the independent state, and are not guarantees of the performance, characteristics, and functions of the described products as mounted in the customer's products or equipment. To verify symptoms and states that cannot be evaluated in an independent device, the customer should always evaluate and test devices mounted in the customer's products or equipment.
- SANYO Electric Co., Ltd. strives to supply high-quality high-reliability products. However, any and all semiconductor products fail with some probability. It is possible that these probabilistic failures could give rise to accidents or events that could endanger human lives, that could give rise to smoke or fire, or that could cause damage to other property. When designing equipment, adopt safety measures so that these kinds of accidents or events cannot occur. Such measures include but are not limited to protective circuits and error prevention circuits for safe design, redundant design, and structural design.
- In the event that any or all SANYO products (including technical data, services) described or contained herein are controlled under any of applicable local export control laws and regulations, such products must not be exported without obtaining the export license from the authorities concerned in accordance with the above law.
- No part of this publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopying and recording, or any information storage or retrieval system, or otherwise, without the prior written permission of SANYO Electric Co., Ltd.
- Any and all information described or contained herein are subject to change without notice due to product/technology improvement, etc. When designing equipment, refer to the "Delivery Specification" for the SANYO product that you intend to use.
- Information (including circuit diagrams and circuit parameters) herein is for example only; it is not guaranteed for volume production. SANYO believes information herein is accurate and reliable, but no guarantees are made or implied regarding its use or any infringements of intellectual property rights or other rights of third parties.
