O.M.N.I. 5 - Category 5 Field Installable RJ45 Connector, Highest Grade Available

The O.M.N.I. 5 connector from Thomas & Betts is the best designed RJ45 jack that we've seen. The connector provides a uniform assembly that meets EIA/TIA termination guidelines. Universally designed, all O.M.N.I. connectors, regardless of type, fit into the same information outlet or patch panel ports (shown below) allowing maximum flexibility.

Each unit is comprised of two simple to use parts, the jack body and a clear dressing bar. Insulation displacement contacts within the jack body complete the termination without need for special stripping or 110 insertion tools. Ivory color and be sure to select EIA/TIA 568A or 568B wiring and/or shielded (screened) types. Note: A Category 3 RJ12 connector is also available for voice, fax, or modem connections.

MODEL	DESCRIPTION	1-9	10-24	25-99
OMNI568A-I	EIA568A - Category 5 RJ45 Connector, Ivory	4.75	4.37	3.99

OMNI3USO-I	USOC - Category 3 RJ12 Connector, Ivory	3.95	3.63	3.32

Parallel Action Pliers - Use for Compressing IDC Body to Jack

This tool is great for crimping O.M.N.I. Series and UJC5E Series jacks. Jaws of the tool work close in parallel providing a better crimp than regular pliers.

HT1008	Parallel Action Pliers	29.95	28.15	26.36

Coax & Fiber Optic O.M.N.I. Connectors Specially Designed for Network Installations

Various coaxial and fiber optic connectors are offered to complement the above line of Category 5 couplers. All units fit into the same information outlets and patch panels allowing maximum flexibility. Note: Couplers and connectors must be purchased with their respective adaptor for mounting in panels or information outlets.

High Density 8 Port Information Outlet - Use with O.M.N.I. Style Connectors

This information outlet will allow up to 8 jacks to be mounted in a single gang faceplate. Outlets consist of a wall mount frame with various modules that snap in from the front. There are three different modules that can be used with this frame: a blank, a 2 port straight out module, and a 2 port 45° module. Use with any of the O.M.N.I. style connectors and couplers found on this page. Choose from Ivory (I), White (W) or Black (BK) outlet components. Please note that Ivory units are stocked while other colors may have to be special ordered.
