

SHIELDED HIGH CURRENT POWER INDUCTOR

6.8 x 7.3 x 3.0 mm

ASPI-06P

RoHS
Compliant

FEATURES:

- Lowest DCR/uH in this package size
- Frequency range up to 5.0MHz
- Handles high transient current spikes without saturation
- Ultra low buzz noise due to composite construction

APPLICATIONS:

- Notebook/Desktop/Server applications
- Low profile, high current power supplies
- Battery powered devices
- DC/DC converter for FPGA

a. Inductance Decrease Current: The current at inductance $\leq 20\%$ drop of initial value.

b. Temperature Rise Current: the current as the core temperature rises to 40°C Max.

c. Test Freq. : 200KHz / 0.25V.
