## LIFEBOOK® AH531 NOTEBOOK

**THE 2ND GENERATION INTEL® CORE™ I3 PROCESSOR DELIVERS ALL THE POWER YOU NEED FOR YOUR FAVORITE APPS. WITH THE LATEST FEATURES AND SLEEK DESIGN, THE FUJITSU AH531 NOTEBOOK IS AN EXCELLENT CHOICE FOR THOSE WHO WANT THE MOST FROM THEIR MOBILE COMPUTING INVESTMENT.**

### EASY TO OWN

There are two ways of approaching your notebook investment. One is to purchase a low cost unit. By taking that approach, though, the savings are generally eaten up by maintenance costs and the hassle of dealing with a poorly constructed, substandard notebook. On the other hand, a high-quality unit may cost a little more, but maintenance costs are lower because the reliability is significantly higher. What if you could purchase a high-quality notebook at a reasonable price? You can - with the cost-effective LIFEBOOK® AH531 notebook.

While the old adage "you get what you pay for" is usually true in the highly competitive world of notebook computers, such is not the case with the LIFEBOOK AH531. Designed to the high Fujitsu standards (a leader in quality and reliability), the LIFEBOOK AH531 notebook provides an easy way to cut costs without cutting performance or reliability.

### PERFORMANCE AND FEATURES

A smart choice for home and office, the 2nd Generation Intel® Core™ processor with Intel® HD 3000 Graphics delivers the architecture required for a rewarding computing experience. This advanced Intel® video engine delivers smooth, high-quality HD video playback, providing an ideal graphics solution for everyday computing.

The Fujitsu LIFEBOOK AH531 is configured with a Dual Layer DVD Writer that can handle most of your optical media needs.

Intel® Wireless Display (WiDi) is a new feature with amazing potential. Imagine being able to wirelessly connect to your TV and play home videos, enjoy the photos from your latest adventure, watch video clips

or shows from the Web, and share your desktop with co-workers, family, or friends.

The HDMI port allows you to play your DVDs on compatible flat screen televisions or a projector — bigger is always better.

Another handy feature is the Anytime USB Charge capability of one of the USB 2.0 ports. This feature lets you charge your other mobile devices (e.g., your cell phone) by simply turning on the feature (it is off by default) and attaching the device to the port.

### FLEXIBLE CONNECTIVITY

The built-in Ethernet LAN provides a way to easily connect to your office network and the Internet at home or at work. For wireless connectivity, the Intel® Centrino® Wireless-N 1030 (BGN) offers you a seamless and flexible way to stay in touch. The webcam adds a fun (and useful) dimension to staying in touch with family, friends, and business associates. With Bluetooth technology you will be able to wirelessly connect to other Bluetooth devices such as cell phones, headphones, or speakers, cutting down on workspace clutter.

### STABLE AND RELIABLE

The LIFEBOOK AH531 delivers all the key features that have contributed to Fujitsu LIFEBOOK notebooks being recognized as among the most reliable in the industry. The new LIFEBOOK AH531 notebook features a solid exterior, highly durable hinges, and a spill-resistant keyboard.

1) Microsoft® Office Starter 2010 (SP1) (32 bit) includes reduced-functionality versions of Word® and Excel® only, with advertising. No PowerPoint® or Outlook®. Purchase Microsoft Office 2010 to activate a full-featured suite.

2) Preinstalled with a free 60-day trial version of Symantec Norton Internet Security 2012. The 60-day trial version is activated upon user's acceptance of software license agreement. After 60 days, the user must purchase a subscription from Symantec to download latest virus definitions.

3) One gigabyte (GB) = one billion bytes; accessible capacity will be less and actual capacity depends on the operating environment and formatting. Approximately 16.2GB of the hard drive is reserved for system recovery software.

4) Battery life tested using MobileMark 2007 and may include audio muted. Battery life will vary depending on the product configuration, product model, application loaded on the product, power management settings on the product, Operating System, and the product features used by the customer. As with all batteries, the maximum capacity of the installed batteries will decrease with time, usage, and how often the batteries are charged by the user.

5) Service and warranty turnaround time may vary by country and product. International warranty valid only for products purchased in North, Central, and South America.
