

**FEATURES:**

- Connector on Input & Output
- Operating temperature: -40 to +80°C
- Over load, Over Voltage, Short Circuit Protection
- Optional DIN Rail mounting bracket
- Universal input: 90-264VAC, 47-440Hz
- RoHS compliant
- Soft start
- Energy Star compliant
- CE, cULus, CB approvals
- 4000VAC I/O Isolation

**Models**  
**Single output**

| Model          | Input Voltage (VAC/Hz) | Input voltage (VDC) | Output Voltage (V) | Output Current max (A) | Maximum Capacitive Load (μF) | Efficiency (%) |
|----------------|------------------------|---------------------|--------------------|------------------------|------------------------------|----------------|
| AMEC15-3.3SMAZ | 90-264/47-440          | 120-370             | 3.3                | 3                      | 4700                         | 74             |
| AMEC15-5SMAZ   | 90-264/47-440          | 120-370             | 5                  | 3                      | 2200                         | 78             |
| AMEC15-12SMAZ  | 90-264/47-440          | 120-370             | 12                 | 1.25                   | 1000                         | 81             |
| AMEC15-15SMAZ  | 90-264/47-440          | 120-370             | 15                 | 1                      | 680                          | 81             |
| AMEC15-24SMAZ  | 90-264/47-440          | 120-370             | 24                 | 0.63                   | 470                          | 83             |

**Models**  
**Dual output**

| Model         | Input Voltage (VAC/Hz) | Input voltage (VDC) | Output Voltage (V) | Output Current max (A) | Maximum Capacitive Load (μF) | Efficiency (%) |
|---------------|------------------------|---------------------|--------------------|------------------------|------------------------------|----------------|
| AMEC15-5DMAZ  | 90-264/47-440          | 120-370             | ±5                 | ±1.5                   | ±1000*                       | 78             |
| AMEC15-12DMAZ | 90-264/47-440          | 120-370             | ±12                | ±0.63                  | ±470*                        | 80             |
| AMEC15-15DMAZ | 90-264/47-440          | 120-370             | ±15                | ±0.5                   | ±330*                        | 81             |

**Input Specifications**

| Parameters                | Conditions     | Typical | Maximum | Units |
|---------------------------|----------------|---------|---------|-------|
| Current                   | 115VAC         |         | 350     | mA    |
|                           | 230VAC         |         | 180     | mA    |
| Inrush current <2ms       | 115 VAC        |         | 10      | A     |
|                           | 230 VAC        |         | 20      | A     |
| Leakage current           | 115 VAC        |         | 0.1     | mA    |
|                           | 264 VAC        |         | 0.2     | mA    |
| External Fuse (recommend) | slow blow type | 2       |         | A     |
| Input Dissipation         | No load        | <0.5    |         | W     |
| Under Voltage Protection  |                | 88      |         | VAC   |

**Output Specifications**

| Parameters                      | Conditions  | Typical | Maximum | Units     |
|---------------------------------|---|---------|---------|-----------|
| Voltage accuracy                |   | ±2      |         | %         |
| Line regulation                 | LL-HL   | ±0.5    |         | %         |
| Load regulation (single output) | 0-100%  | ±0.5    |         | %         |
| Cross regulation (dual output)  | 25% load - 1 <sup>st</sup> out, 100% load - 2 <sup>nd</sup> out | ±5      |         | %         |
| Transient Recovery Time         |   | 200     |         | μs        |
| Transient Recovery Deviation    | 25% load step   | ±2      |         | % of Vout |
| Ripple & Noise*                 | 20MHz bandwidth   | 100     |         | mVp-p     |
| Hold-up time                    | min   | 20      |         | ms        |

\*Ripple & Noise measured with 1μF M/C and 47μF E/C

## Isolation Specifications

| Parameters           | Conditions | Typical | Rated | Units |
|----------------------|------------|---------|-------|-------|
| Tested I/O voltage   | 3sec       |         | 4000  | VAC   |
| Isolation resistance |            | >1000   |       | MΩ    |

## General Specifications

| Parameters               | Conditions                       | Typical   | Maximum               | Units  |
|--------------------------|----------------------------------|---|-----------------------|--------|
| Switching frequency      |                                  | 132   |                       | KHz    |
| Start up time            |                                  | 900   |                       | mS     |
| Over load protection     | Auto recovery, hiccup mode       | >131  |                       | %      |
| Over voltage protection  |                                  | Zener diode clamp                                   |                       |        |
| Short Circuit protection |                                  | Continuous  |                       |        |
| Short Circuit restart    |                                  | Auto recovery                                       |                       |        |
| Operating temperature    | With derating over 55 °C (10CFM) | -40 to +80  |                       | °C     |
| Storage temperature      |                                  | -40 to +100   |                       | °C     |
| Max Case temperature     |                                  |   | 100                   | °C     |
| Temperature coefficient  |                                  | ±0.02   |                       | % / °C |
| Cooling                  |                                  | Free air convection                                 |                       |        |
| Humidity                 |                                  |   | 95                    | % RH   |
| Weight                   |                                  | 100   |                       | g      |
| Dimensions (L x W x H)   |                                  | 3.62 x 2.56 x 0.94 inches                           | 92.0 x 65.0 x 24.0 mm |        |
| MTBF                     |                                  | > 400 000hrs (MIL-HDBK -217F, t <sub>a</sub> +25°C) |                       |        |

NOTE: All specifications in this datasheet are measured at an ambient temperature of 25°C, humidity<75%, nominal input voltage and at rated output load unless otherwise specified.

## Environment Approval

| Parameters | Conditions   |
|------------|--|
| Shock      | Wave form: Half sine wave  |
|            | Acceleration amplitude: 5gn  |
|            | Bump duration: 30 ms   |
|            | Number of bumps: 18 (3 in each direction for every axis)   |
|            | Converter operation before and after test, body mounted (on chassis)   |
| Vibrations | Test mode: Sweep sine  |
|            | 10-100Hz, speed 0.05Hz/s   |
|            | Displacement: 1mm  |
|            | Acceleration: 3g   |
|            | 3 loops 30min one cycle, 3h total, every axis tested<br>Converter operation before and after test, body mounted (on chassis) |

## Safety & EMC Specifications
