FO Duplex Adaptor Cables 1st end MT-RJ, 2nd end T-SC Duplex (with clamp for flexible A/B setting) G62,5/125 2,0 m

Technical Attributes	
Fibre type	G62,5/125 OM1
Connector type	1st end T-SC Duplex (with clamp), 2nd end MT-RJ
Length	2,0 m
Housing Colour SC	beige
Cable Colour	orange

Product description

FO patch cords are mainly used in patch panels or for connection between outlets and terminals. Duplex cables with duplex connectors prevent from changing transmission and reception lines. The quality of connectors and fibres used determines to a great degree the insertion loss and reflexion performance of the transmission line. Factory- assembled FO patch cables guarantee exceptional optical and mechanical characteristics and a long lifetime due to use of optimized components and of a constantly controlled manufacturing process. Flame-retardant and halogen-free cable sheath material provides low environmental load.
