

SMT Power Inductors – DO1608 Series

The DO1608 Series has a footprint of only 0.26" × 0.175" (6,6 mm × 4,5 mm). Their high energy storage and very low resistance make them the ideal inductors for DC-DC conversion in notebook computers, PDAs, step-up or step-down converters, flash memory programmers, etc.

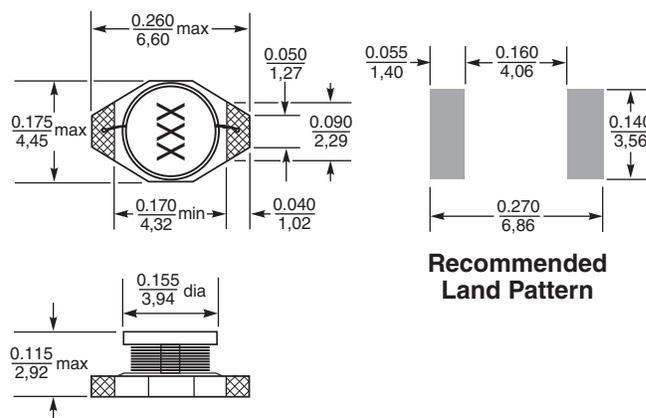

For reliable surface mounting, we've designed the DO Series with a flat top and robust temperature deflection to prevent damage during solder reflow.

In addition to the standard versions shown here, custom inductors are available to meet your exact requirements.

1. Tested at 100 kHz, 0.1 Vrms, 0 Adc.
 2. DC current at which the inductance drops 10% (typ) from its value without current.
 3. Average current for 15°C temperature rise from 25°C.
 4. Operating temperature range -40°C to +85°C.
 5. Electrical specifications at 25°C.
- See Qualification Standards section for environmental and test data.
See Color Coding section for part marking data.

Part Markings

Weight: 128 – 164 mg
Terminations: Nickel/gold over moly-manganese
Tape and reel: 750/7" reel; 2500/13" reel 12 mm tape width
 For packaging data see Tape and Reel Specifications section.
