

130/174 MHz**3 dB Gain, High Performance
Vehicular Antenna Series***Model***ASPS177 Series***Antenna
Mounting
Options:***ASP446**

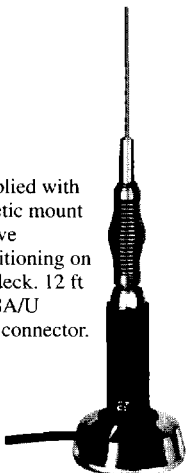

Same as ASPS177, but with 3/8 inch (9.5 mm) snap-in mount, 17 ft (5.2 m) RG-58/U cable, PL-259 connector.

**ASP553**

Same as ASPS177, with special K-27 adapter for use with A/S "low profile" or Motorola mounts for Motorola models TAD-6111A, TAD-6112A, TAD-6113A and TAD-6114A. Cable not included.

ASP558

ASPS177 supplied with die cast magnetic mount base for positive temporary positioning on metal roof or deck. 12 ft (3.6 m) RG-58A/U cable, PL-259 connector.

Style — aesthetically-pleasing black coil complements today's vehicles
Performance-Plus — 3 dB gain provides system improvement at low cost

Time-Proven — accepted as the industry's standard of performance

High Quality — shock-resistant, weatherproof, shunt-fed transformer handles over 100 watts with ease

Flexible — 17-7PH stainless steel whips will bend in a full circle without setting

Long Life — stainless steel shock spring extends life of installation while chrome-plated brass mounting hardware maintains appearance

Versatile — available in mounting styles to fit most popular vehicular configurations

Durable — stainless steel shock spring provides resilience in rugged operating environments

Specifications**Electrical**

Power	150 watts
Gain	3 dB (5 dBi)
Frequency Range	130-174 MHz
Bandwidth	4 MHz
VSWR	Better than 1.5:1
Impedance	50 ohms nominal

Mechanical

Whip Material	17-7PH stainless steel
Whip Length	49 inches (1.2 m) maximum; 51½ inches (1.3 m) maximum including spring
Spring Material	Stainless steel
Transformer	DC grounded, shunt-fed, plastic jacket, weatherproof, shock-resistant, 1 inch (25.4 mm) diameter, ¾ inches (82.6 mm) length
Base and Fittings	Plated brass and steel
Antenna Connections	Solderless
Cable	RG-58/U where furnished (Length specified under model description)
Connector	PL-259, where supplied

**ASPS177**

Complete antenna including base, coil, spring, whip, 17 ft (5.2 m) RG-58/U cable. Connector not supplied.
