## Soft Sound Type Push Switches

## Japan

## Type: ESB30 (H=12.5 mm)

- Features
- Reduced interlock operation switching noise (-10 dB compared to the current value)
- Simultaneous locking prevention mechanism
- Tactile feedback when operated
- A wide range of acceptable currents from microcomputer controls to relay control signals

## - Recommended Applications

- Operation switches for automobiles (A/C switches, Hazard switches, etc.)
- Secondary power switches for lower voltage in consumer electronic equipment and different types of mode switches
