

015 Field Installable Optical Connectors

Outline

The field installable optical connectors are designed to be easily installed in the field.

The mechanical splice technology allows you to attach connectors with pre-polished endfaces to optical cables quickly and easily.

Field installable connectors are available in various types: SC and MT-RJ connectors.

Field Installable SC Connector (Before Install)

Field Installable SC Connector (After Installed)

Field Installable MT-RJ Connector (Before Install)

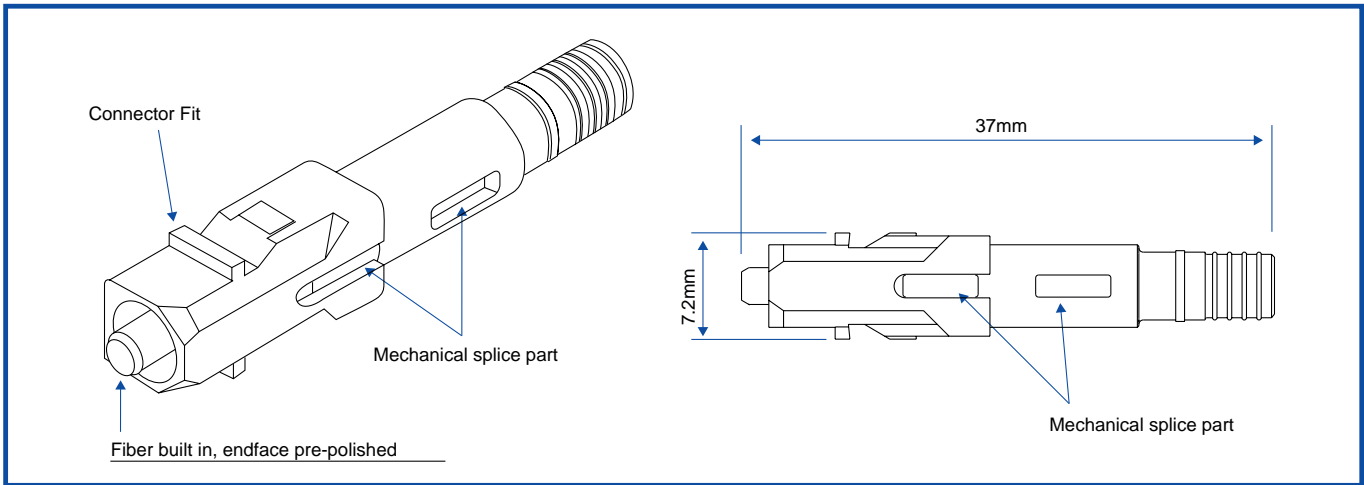

Field Installable MT-RJ Connector (After Installed)

Connector Components

- ① Housing body
- ② Field installable Mini-MT ferrule
- ③ Spring
- ④ Spring push
- ⑤ Crimp eyelet (only for cord assembly type)
- ⑥ Boots

Assembling Process

The assembly process is shown in three sequential steps:

- 1** Prepare the fibers and place the connector into the assembly tool.
- 2** Open the mechanical splice with the wedge and insert the fiber. (An inset diagram shows a "Wedge" being used to "Open the mechanical splice").
- 3** Remove the wedge and the connector from the assembly tool. Assemble the rubber boot.

List of Connector Characteristics

Connector Type	Fiber Type	Polishing Type	Connection Loss	Return Loss
SC	SM10/125	SPC	≤0.9dB(Ave. 0.5dB)	≥40dB
	GI50/125	PC	≤0.6dB(Ave. 0.1dB)	-
	GI62.5/125	PC	≤0.6dB(Ave. 0.1dB)	-
MT-RJ Plug	SM10/125	PC	≤1.0dB(Ave. 0.6dB)	≥40dB
	GI50/125	PC	≤0.6dB(Ave. 0.1dB)	-
	GI62.5/125	PC	≤0.6dB(Ave. 0.1dB)	-

NOTE: The Connection Loss and Return Loss as measured against master connectors.

Connector Types

Model Name **FISC - SM - 09/00**

③

① Connector Type

FISC: Field Installable SC Connector
 FIRJ: Field Installable MT-RJ Plug

② Fiber Type

SM:SM10/125
 G5:GI50/125
 G6:GI62.5/125

③ Fiber Cord Type (SC)

09/00: 0.9mm-diameter fiber Applicable fiber diameter; 0.85-0.95mm
 09/20: 2.0mm-diameter cord
 09/28: 2.8mm-diameter cord
 025/00: 0.25mm-diameter fiber Applicable fiber diameter; 0.240-0.265mm

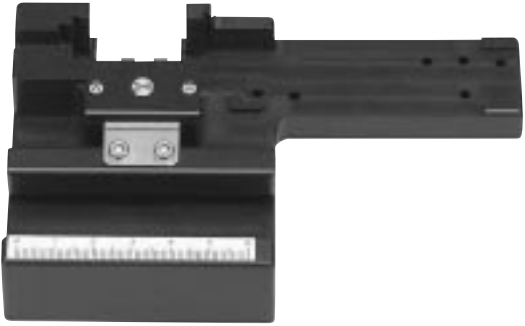

③ Fiber Cord Type (MT-RJ Plug)

0075/00: 0.75mm pitch, 2-fiber ribbon core
 075/28: 2.8mm-diameter cord

O:Standard
+:Optional

FI-KITSC-A : A tool kit for field installable SC connector of fiber type. Can also be used to work on cord type connectors by adding optional tools.

FI-KITSC-B : A tool kit for field installable SC connectors of fiber cord type. A standard kit is intended for a 0.9mm-diameter fiber, and can also be used for a 0.25mm-diameter fiber by adding optional tools.

FI-KITMTRJ-A : A tool kit for field installable MT-RJ connectors of fiber type. Can also be used to work on cord type connectors by adding optional tools.

FI-KITSC-C : This is a simplified version of assembly tool kits. A standard kit is made up of tools for SC connectors, and can also be used in installing MT-RJ connectors by adding optional tools (FI-OPKITMTRJ).
