

Key Features

- Protection from electrical shock.
- Conforms to UL 94-V1
- Protects against ingress of dust and moisture.
- Fits most ranges of Schaffner IEC Inlet Filters

Insulating Boots

For use with IEC Inlet Filters

There are a full range of insulating boots available from Schaffner Ltd that provide a physical cover for the exposed terminals on the back of IEC Inlet Filters. These boots fit the simplest non-fused and unswitched style up to the fully fused and switched IEC filtered inlet.

The boots are made from a durable black PVC material that conforms to UL94-V1 flammability requirements. The boots slip easily over the back of the filter and reduce the risk of electrical shock to maintenance personnel whilst protecting the filter from environmental hazard such as the ingress of dust and moisture.

Part Number	Dimensions (mm)						Filter Application		
	A	B	C	D	E	F	IEC	IEC With fuse	IEC With switch/fuse Voltage selector
IB1 - 06	55	9	40	6	20	30	YES		
IB2 - 06	60	9	45	6	30	35		YES	
IB3 - 06	85	9	75	6	30	60			YES
IB3 - 10	80	13	60	10	30	60			YES

Material thickness : 1mm approx...
 Operating temperature range : -10°C to 60°C

All dimensions are nominal
