NOTE: (1) All measurements are at nominal input, full load, and +25°C unless otherwise specified.

- (2) Load regulation is measured at 115 Vac or 230 Vac in percentage to indicate the change in output voltage as the load varied from half load to full load (±%).
- (3) The exact obtainable load regulation depends upon the output cord selected and load current.
- (4) Due to requests in market and advances in technology, specifications subject to change without notice.

For the details of safety approval, please consult the factory.
