Revision History

HT68F002/HT68F0025/HT68003   Cost-Effective Flash MCU with EEPROM

Revision # 1.41   Modifications made on April 11, 2017

- Remove the 8-pin package type marketing limitation.

Revision # 1.40   Modifications made on January 17, 2017

- The word "EEPROM" was changed to "true EEPROM" in the Features and General description sections.
- A new device, the HT68F0025, has now been added to the datasheet.

Revision # 1.30   Modifications made on September 27, 2015

- In the Peripheral Features section, the Flash program memory and EEPROM data memory items were added.

Revision # 1.20   Modifications made on July 10, 2015

- In the RSTC External Reset Register table, the other values description was modified.
- In the SMOD1 Register table, the bit 3 information was modified.

Revision # 1.10   Modifications made on March 16, 2015

- The 10-bit PWM Mode, Edge-aligned Mode section was modified.

Revision # 1.00   This was posted on August 1, 2014
