**SHP-48+** 

 $50\Omega$ 48 to 2150 MHz

## **The Big Deal**

- Low insertion loss
- High rejection
- Connectorized package

CASE STYLE: FF56

### **Product Overview**

SHP-48+ is a High pass filter in a connectorized package covering 48 to 2150 MHz. This filter can be used in SATCOM, CATV, Broadband Fiber Networks and Multiband radio systems. It has repeatable performance across production lots and consistent performance across temperature.

# **Key Features**

| Feature               | Advantages   |  |  |
|-----------------------|--|--|--|
| Low insertion loss    | Can be used in high performance applications.  |  |  |
| Good rejection        | This enables the filter to attenuate spurious signals and reject harmonics for broad band frequency. |  |  |
| Connectorized package | The connectorized package is easy to interface with other devices and well suited for test setups.   |  |  |

Notes
A. Performance and quality attributes and conditions not expressly stated in this specification document are intended to be excluded and do not form a part of this specification document.

B. Electrical specifications and performance data contained in this specification document are based on Mini-Circuit's applicable established test performance criteria and measurement instructions.

C. The parts covered by this specification document are subject to Mini-Circuits standard limited warrantly and terms and conditions (collectively, "Standard Terms"); Purchasers of this part are entitled to the rights and benefits contained therein. For a full statement of the Standard Terms and the exclusive rights and remedies thereunder, please visit Mini-Circuits' website at www.minicircuits.com/MCLStore/terms.jsp

# **High Pass Filter**

**50**O 48 to 2150 MHz

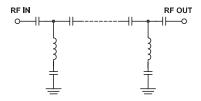

#### **Features**

- Wide band, 48 MHz to 2150 MHz
- High rejection
- Connectorized package

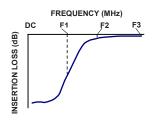

#### **Applications**

- SATCOM
- Broadband Fiber Networks
- CATV
- Radio communications
- Receivers \ transmitters

#### **Functional Schematic**

#### **Typical Frequency Response**

+RoHS Compliant The +Suffix identifies RoHS Compliance. See our web site for RoHS Compliance methodologies and qualifications
